

Trade Compliance Policy

Overview

We are committed to complying with all trade regulations and policies that apply to us to ensure that the export, re-export and import of our products, services and technologies meet the highest standards of trade compliance. We understand the importance of compliance in maintaining the trust of our customers, safeguarding our business continuity and fulfilling our social responsibilities.

Powerquark's products are subject to the laws and regulations of the United States, as well as the laws and regulations of the countries and regions where the products are imported and exported. Under no circumstances shall transactions that violate this Import and Export Compliance Policy be carried out.

Export Assurance

Powerquark strictly complies with all applicable trade regulations in the United States and other countries and regions where it conducts business, including but not limited to export controls, economic sanctions, and trade agreements. We closely monitor regulatory changes and promptly adjust our compliance measures to ensure that all business activities remain lawful and compliant.

Powerquark fully recognizes the importance of supply chain compliance and therefore strictly manages its supply chain to ensure transparency and traceability. We require our suppliers to comply with applicable trade regulations and clearly specify compliance requirements in contracts to mitigate trade compliance risks within the supply chain.

Responsibility System

For violation of trade compliance policies and procedures, we will take serious measures, including but not limited to disciplinary action, termination of cooperative relationship. For violation of laws and regulations, the company will bear the corresponding legal responsibility according to the law.

Continuous Improvement and Cooperation

Powerquark will continually review and improve its trade compliance management system to adapt to the changing regulatory environment and business needs. We will continuously optimize our compliance system to improve compliance levels.

We actively cooperate with government agencies, industry associations and other relevant organizations to promote trade compliance. We are willing to share our compliance experience with our customers, suppliers and other business partners to promote the improvement of the compliance level of the whole industry.
